

"SURVIVAL SITE SKETCH MAP!"

The following is a guide in which to establish and position your survival materials, mechanisms, throughout your survival site. Remember, one survivor can establish a survival site, but 02 or more survivors at the same site can easily keep busy (AVOID fear & panic) and build a well established and liveable survival site and area!

Remember, you must establish a PRIORITIES OF WORK schedule. **What is the very most important factor to your survival right now?** Is it fire, water, shelter, first-aid, signal, food, weapons, or navigation? Relax, take a deep breath, and make wise decisions. Notice water procurements are still constructed even though water is available to show you where they might be located in your survival area. Remember to use PRSC throughout your survival situation to AVOID disaster. Reread *Section 01,02 & 03*.

- 01) Basket Fish Traps
- 02) Below Ground Water Still
- 03) Bottle Traps
- 04) Branch Snare
- 05) Caged Gill Nets
- 06) Cat Hole\Slit Trench Site
- 07) Clothes Line
- 08) Deer Snare
- 09) Den Trap
- 10) Dew On A Stick Area
- 11) Dry Meat Platform
- 12) Duck Snares
- 13) Emergency Signal Platforms
- 14) Female Shower Site
- 15) Figure-Four Deadfalls
- 16) Fire Pit (cooking, purifying water)
- 17) Fire Pit (warming fire)

- 18) Fire Wall
- 19) Firewood Storage
- 20) Fish Stakeouts
- 21) Floating Platforms
- 22) Game Preparation Site
- 23) Gill Nets
- 24) Jigging Poles
- 25) Lift Pole Snares
- 26) Laundry Site
- 27) Male Shower Site
- 28) Natural A-Frame Shelters
- 29) Natural Signal Sites
- 30) Ojibwa Bird Poles
- 31) Pre-tested Plant Procurement Area
- 32) Pure Water Storage
- 33) Raft Docking Site
- 34) Simple Snares
- 35) Smoking Meat Platform
- 36) Squirrel Poles
- 37) Sun Clock
- 38) Tight Rope Bridge
- 39) Transpiration Units
- 40) Treadle Snare
- 41) Twitch-up Snare
- 42) Water Filtering Site
- 43) Water Storage Hole
- 44) Weapons Storage
- 45) Weather Forecasting Area
- 46) Worm Procurement Area
